

Tackle the TAA

Managing

On-Line Reviews

Objective is to give onsite personnel a thorough understanding of the TAA lease and the Rental Application, ensuring the Understanding of the most recent changes to the lease agreement. The TAA Lease will be reviewed in detail by paragraph, so that the personnel can better communicate with residents and potential residents about lease content and interpretation.

How to manage the Impact of On-Line Reviews is essential to keeping the Property or Companies Reputation in tact. Requesting feedback and responding to every review can help businesses protect their band reputation. Businesses can no longer take a laissez faire approach to their online reviews. Without a proactive review management strategy, you'll be leaving your reputation up for grabs. This session will help you develop a proactive review management strategy and build a strong reputation.
